HIST

Щ	ANALYSIS OF REASONABLE EXPOSURE TIME: Exposure Time is the estimated length of time the property interest being appraised would have been offered on the market
₽	before the hypothetical consummation of a lease at market rental rates on the effective date of the appraisal. It is a retrospective estimate based upon an analysis
RE	of past events assuming a competitive and open market. With no data available for the Cochrane market, the 2022 CMHC market rent report released February has been relied upon for a board indication of rental rates across the area. The report indicates a vacancy rate of 4.2% for the average two bed condominium.
EXPOSURE TIME	Converted to how many days per year a property would be vacant, this translates to 15 days. The Exposure Time for the subject is estimated at 15 to 45 days.
XPC	This is not an estimate as to how long the subject's estimated rent rate will remain as stated. *It should be noted that conversation with industry professional, as
ш	well as local publications have pointed to a very healthy rental market with upward pressure on rental rates.
	RECONCILIATION AND FINAL ESTIMATE OF RENT: Upon reconciliation, comparable rental indices form range of \$1,950 to \$2,490. Index 1 is seen as the
RENT	strongest indicator of value, with Indices 2 and 3 representing clear upper limits, providing more utility and amenity. Although all two-
	storey units, these are seen as most representative of the subject market, providing comparable marketability. After adjustment,
NAI	comparable indices form a range of \$1,950 to \$2,100. The owner being responsible for property taxes, maintenance, insurance, and

	DEFINITION OF MARKET RENT: The estimated amount for which an interest in real property should be leased on the valuation date between a willing lessor and a willing lessee on appropriate lease terms in an arm's length transaction, after proper
S	marketing and where the parties had each acted knowledgeably, prudently and without compulsion. (International Valuation Standards 2017)
	DEFINITION OF HIGHEST AND BEST USE: The reasonably probable use of real property, that is physically possible, legally permissible, financially feasible, maximally productive and that results in the highest value. (CUSPAP 2018)
ΙŻ	
DEFINITIONS	
	The scope of the appraisal encompasses the due diligence undertaken by the appraiser (consistent with the terms of reference from the client, the purpose and intended use of the report) and the necessary research and analyses to prepare a report in
	accordance with the Canadian Uniform Standards of Professional Appraisal Practice (CUSPAP) of the Appraisal Institute of Canada. The following comments describe the extent of the process of collecting, confirming and reporting data and its analyses, describe relevant procedures and reasoning details supporting the analyses, and provide the reason for the exclusion of any usual valuation procedures.
	The appraisal issue that is the focus of this engagement has been discussed and defined with the client, the work required to solve the issue planned, and the necessary market data acquired, analyzed and reconciled into an estimate of market rent in a manner typically expected in a "form" report.
	The specific tasks and items necessary to complete this assignment include a summary of the following:
	Assembly and analyses of pertinent economic and market data;
	An analysis of land use controls pertaining to the subject property;
	3. An analysis of "Highest and Best Use", or most probable use;
	4. A discussion of the appraisal methodologies and procedures employed in arriving at the indications of value;
	5. Inclusion of photographs, maps, graphics and addendum/exhibits when deemed appropriate; and
	6. Reconciliation of the collected data into an estimate of market rent range as at the effective date.
Ę	All data considered appropriate for inclusion in the assignment is, to the best of our knowledge, factual. Due to the type of property
SCOPE	being appraised and the nature of the appraisal issue, the findings have been conveyed in this "form" format.
S	being appraised and the nature of the appraisal issue, the infamige have been conveyed in this form format.
